

Speed Guide for our Epic Pay Monthly Plans (from 27.04.2022)

This speed guide is for Epic Basic, Epic Standard and Epic Extra Pay monthly plans (referred to as 'Tariff Plans') launched on the 26th November 2021, for the avoidance of any doubt this speed guide does not apply for any other Pay Monthly plan tariff. The Speed Guide serves for informational purposes only and its aim is to give you a clearer explanation on the speed experience of the Tariff Plans. Remember that the actual speeds you reach will continually vary depending on many factors such as device capabilities, location, network congestion, network coverage and if you are roaming.

For the details about the Unlimited products kindly visit page the tariff specific website page:

1. With the **Epic Basic** at up to 3Mbps upload and up to 20Mbps download speeds you can make an SD video call, browse the internet excellently, catch up on social media, browse through your emails & navigate through maps.
2. With **the Epic Standard and Epic Extra** at up to 90Mbps upload and full download speeds you can stream music, make an SD/HD video call, browse the internet excellently, catch up on social media, browse through your emails, stream your favourite sports game, video chat, download/upload files, stream 4K Video & navigate through maps.
