The benefits provided with each Option remain valid for the duration of the Validity Period set out in Table 1 above, unless you top up with the same Top Up Trigger amount whilst your Mix Option is still valid. In such case, the Validity Period will recommence on the date of the subsequent Top Up and the then current available benefits and the subsequently acquired benefits would remain available until the expiry of the subsequent Validity Period. Should you top up with a different Top Up Trigger whilst a Mix Option is in effect, you will benefit from the Option acquired by the subsequent Top Up Trigger once the first Option expires or its benefits are consumed.

4.5 Once the Validity Period of your Mix Option expires, any remaining unused benefits will be forfeited. For the avoidance of doubt, this does not apply to the Credit left in your account which will remain available. We will notify you via SMS 1-day before, 2 hours before and upon the expiration of your Mix Option that such option has expired or shall expire and any unused benefits have or will therefore be lost.
